## SAFETY TIPS! (How should I prepare materials for transport to the collection site?)

- Bring products in their original containers—Do not mix products!
- Make sure containers are properly sealed and labeled correctly
- If the container leaks, pack in larger container and use absorbent, such as cat litter, to soak up leaks
- If you do not know what it is, mark it “unknown”
- If possible, place materials in cardboard boxes—boxes with dividers make for good packaging
- Place materials in areas away from drivers and passengers
