Easy Curb Marker

Installation

For more information: 713.274.3746 or
www.cleanwaterclearchoice.org

The das Curb Marker can be applied to most flat, non-soil surfaces.

1. Clean Surface

Make sure application surface is flat, dry and free of any loose debris.

2. Apply Adhesive

Coming in 1/8" from the outside edge of the marker, apply a bead of adhesive and then work in to the center.

3. Stick It!

Apply the marker to the application surface pushing down HARD forcing adhesive out around the entire edge. It is important that the entire edge of the marker is sealed to the application surface.

Once installed, das Curb Markers stay affixed. And they maintain their attractive appearance for years.
